

# Project summary

## Caboolture Hospital Redevelopment

Queensland

Over the next three years, Caboolture Hospital will undergo a major expansion and redevelopment to build a bigger and better hospital with more health services and improved parking for the community.

By 2023, the \$399.5 million project will deliver a new five storey Clinical Services Building, a new Multi-Storey Carpark, an expansion and refurbishment program that will enhance and modernise spaces within a number of areas of the existing hospital and the relocation of Building Engineering and Maintenance Services (BEMS) into a new facility.

The Caboolture Hospital Redevelopment provides the community with access to a modern health facility and new specialist healthcare services, meaning patients can be treated closer to home, rather than always having to travel to larger facilities for treatment.

Metro North Health is delivering the Caboolture Hospital Redevelopment and has appointed Lendlease Building as the Managing Contractor. This exciting project will make sure Caboolture Hospital continues to meet the health needs of the local community as the population grows over the coming years.
