

Project Summary

Logan Hospital Expansion

Queensland

Logan is one of the fastest growing regions in the state with more than 70,000 people expected to move to the area within the next decade. The Logan Hospital Expansion is one of the state's largest ever hospital expansions.

The expansion will be a significant transformation for Logan Hospital. In addition to a vertical expansion (new floors), the program of work includes the refurbishment of parts of the original hospital buildings.

The project entails the addition of 206 beds and treatment spaces, a four-floor vertical expansion of Building 3, and building-in of the ground floor of Building 3. Additionally, clinical, clinical support and operational service support areas in the existing hospital buildings will undergo refurbishment. Through this expansion, the aim is to provide a range of new and expanded healthcare services to the Logan community, making Logan Hospital a valuable partner in one of the fastest growing regions in the state.

Supplied by **esco**
industries

- Alphamax Recessed Services Panels
- Line Isolation & Overload Monitors
- MediTek Switchgear & Accessories
- Equipotential earthing
- Medical Gas Outlets
- Medical Gas Isolation Control Valve Boxes

Region	Queensland
Project Name	Logan Hospital Expansion
Market Segment	Hospital
Project Value	\$400m
Client	Queensland Health
Architect	BVN
Builder	John Holland
Consultant - Electrical	AECOM
Consultant - Mechanical	AECOM
Contractor - Electrical	Stowe Qld
Contractor - Medical Gas	BOC (Early Works); Hosmed
Estimated completion	2025
