

# Project Summary

## Maroondah Hospital

### ED Expansion

Victoria

The upcoming emergency department is set to have 14 additional treatment areas, enabling roughly 22,400 more patients to receive emergency medical attention annually.

Additionally, the hospital will have a separate section exclusively for children, ensuring that families seeking medical attention can benefit from a tranquil, child-friendly environment.

This will cater to the growing need for paediatric emergency care, resulting in reduced wait times and more tailored care for children and their families.
