

## PART NUMBER

## SERVICE COLUMN / 80 x 86MM x 3M LENGTH

### MODEL DESCRIPTION

Modempak's 80mm x 86mm vertical service column (pole) is an extremely versatile, economic and easy to install multi service outlet unit. The service pole is a two compartment channel with two removable covers and spans floor to ceiling.

- 80mm wide (across the face) x 86mm deep twin channel pole.
- Accepts PDL 600 series outlets. PDL outlet plates and mounting clip are available.
- Each pole supplied with ceiling flange, top and bottom brackets.
- 3 metre lengths stocked
- Other lengths available for project quantities – call to discuss
- Optional Jacking struts for supporting the pole against the roof available.
- Standard colour stocked for immediate delivery: Penrose White
- May be specified in any of the Dulux Duralloy range of over 100 powder coat colours.

Body and cover manufactured from extruded aluminium.
